

Barbecue Meals

All our steaks are cut from Grade AAA, Alberta Beef - 0 x 0, which means that they are lean and very good. They are pre-seasoned and we have served tens of thousands of these steaks. They truly are the best steaks that you can buy. We make our own beans, no canned beans for our valued customers!! They are truly delicious and complement all barbecues, perfectly. Vegetarians can also be accommodated with a variety of choices. This is very important, especially in large groups. It is also important with large groups to have alternates, such as salmon and/or chicken, for the guests who don't eat red meat.

Feel free to create your own perfect meal from the suggestions given below. Even if a dish is not listed, and it is your favorite, speak up, and we will do our very best to accommodate your needs. If you have a special recipe, let us know; if you can cook it, so can we! If there are any items listed here, which you are not sure about, please ask. We want to create a perfect meal for your special event!
